# NoteLocker 12

NoteLocker 12 as a Floor-standing Solution

NoteLocker 12 is a modular storage and charging cabinet with 12 separate storage compartments.
In each compartment a laptop, mobile phone, iPad or any other electronic equipment can be stored while being charged. Each of the lockable compartments is fitted with 1 power socket. In a relatively small floor area a wide range of devices can be securely stored and charged.
In 45 x 80 cm of floor space 2 cabinets of NoteLocker 12 can be placed and hence create a storage solution for 24 students.

As standard, NoteLocker is supplied with a rotating handle for a padlock. Notelocker in key or codelock version is available as well.
As an option, you may wish to choose doors in several different colours so that each department is furnished in its own design.

NoteLocker is designed, manufactured and tested to comply with all relevant provisions in EN 60950-1 Safety of Equipment for Information Technology and BS 6396 - Electrical Systems in Furniture and Equipment in Educational Environments.
